

Environmental Policy

At Balark Metals Pvt Ltd., we are committed to safeguarding human health, conserving natural resources, and protecting the environment through responsible operations and continual improvement.

To fulfil this commitment, we shall:

- Establish and maintain clear environmental objectives and targets, along with processes for regular review and evaluation.
- Comply with all applicable environmental laws, regulations, and other relevant requirements.
- Promote the use of environmentally sustainable technologies and practices to prevent pollution and improve environmental performance.
- Conserve natural resources and energy by minimizing consumption, waste, and inefficiencies.
- Reduce waste generation, promote recovery and recycling, and adopt eco-friendly waste disposal methods.
- Regularly review our environmental performance and EMS objectives to drive continual improvement.

Foster environmental awareness and responsibility among employees, contractors, and stakeholders through ongoing communication and training

1st April 2025
